

*"Partnership and trust are the foundation of our business. When we were looking for a security services specialist to work with we needed a company who could tick both boxes and DCL Security were an excellent fit. Their partnership approach is totally in line with our values and that's what makes us a great team."*

**Alan Wilson, Operations Director, Carillion Construction**

### **Making tomorrow a better place.**

As one of the UK's leading integrated support services companies, with extensive construction capabilities Carillion's strategy is to make tomorrow a better place. Their vision to be the leader in delivering integrated solutions for infrastructure, buildings and services means that their standards are extremely high and their focus on delivering exceptional service to their clients is exactly what they expect when they are looking for the right partner.

### **A tailored approach.**

DCL Security was able to develop a security solution to meet their needs and a service ethos to enable a successful working partnership. A combination of Security Guarding, Keyholding & Open & Close services were exactly what Carillion needed and thanks to our bespoke approach we could tailor the service to suit the specific needs of each location. From Carillion Rail in Bishopbriggs to Carillion Construction where they were contracted to build the new HM Prison for Scottish Prison Service in Greenock, Inverclyde, our team of trained, qualified Security Guards and our flexible range of security services was the answer.

*"Each of our sites is different and DCL Security identified the security needs at each location. They had such a flexible approach which meant they could develop the most effective security solution quickly."*

**Jim McAllister, Administration Manager, Carillion Construction**
